“YOU DECIDE”

£120,000 Public Health Grant

To inspire and empower people who live in our community

You Decide

Local people are being asked to come forward with ideas for a £120,000 community fund aimed at tackling health issues in their areas. The money comes from the Council’s Public Health Service and is targeted at projects which will positively address health issues such as obesity, lack of physical fitness, and mental wellbeing on a very local level.
