

**FUNDING FOR PRIMARY SCHOOL PE and SCHOOL SPORTS 2016-17**

The government is providing an extra £150 million of annual funding for the academic years of 2015/2016 and 2016/2017. The aim of this funding is to improve the Physical Education (PE) and Sports programmes offered by primary schools, and is provided jointly by various governmental departments, including Education, Health and Culture, and Media and Sport. Although the funding will be allocated to primary school head teachers, it will be ‘ring fenced’ – this means that it can only be spent specifically on PE and sport in schools.

**Purpose of funding**

Schools must spend the additional funding on improving their provision of PE and sport, though how they do this remains their decision.

This is how Leighton Academy plans to use the funding in 2016-17:

- Hiring a specialist PE instructor to work with all children in the school for one of the two PE lessons per week
- Hiring specialist qualified sports coaches to work with pupils across the school as with the staff for CPD
- Hiring a part time PE apprentice to work alongside the PE instructor
- Paying for qualified sports coaches to provide after school clubs to develop skills in specific sports
- Paying for professional development opportunities for teachers in PE and sport
- Increasing pupils participation in inter and intra school sports competitions
- Purchasing quality resources to support the delivery of school sports clubs and P.E lessons

**For the academic year 2016-17, Leighton Academy will be allocated £10,085** of sports funding and this is topped up by funds allocated to PE and school sport within the academy budget. Below you will find a full breakdown of how the sports funding will be allocated and the potential impact of this.
