

Leighton House Point System

From September 2014, the academy is adopting a new house system for sporting events and as a reward system. Bentley Motors have kindly given us the rights to images of 6 of their cars to use as our house names. Each child in the school has been put into a house and they can collect tokens for their team as a reward for outstanding work, behaviour, effort or achievement. Each week the tokens will be collated and a running total will be kept. There will be rewards each term for children in the winning house. Houses will also be used for sporting events, such as school games days and inter class tournaments.
